EPC COMPANY

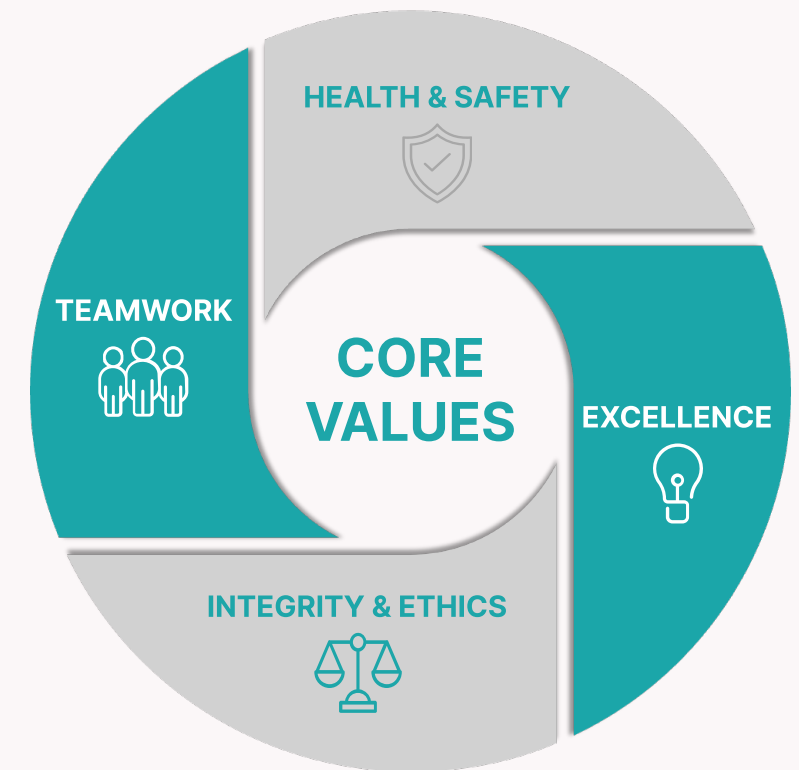

for industrial &
infrastructural facilities

CORPORATE PRESENTATION

WHO WE ARE

ANCON is a diversified company that has expertise in the construction of infrastructure and industrial facilities and offers comprehensive solutions not only in the fields of Engineering, Procurement, and Construction (EPC) but also in the Operation, and Maintenance (O&M) of infrastructure, thereby providing an integrated approach to all aspects of its activities.

The company focuses on long-term, positive business relations and healthy cooperation and supports international standards on human rights, labor conditions, the environment, and anti-corruption. Additionally, it strives to operate based on a common set of values, business principles, and performance management.

PROJECT
MANAGEMENT

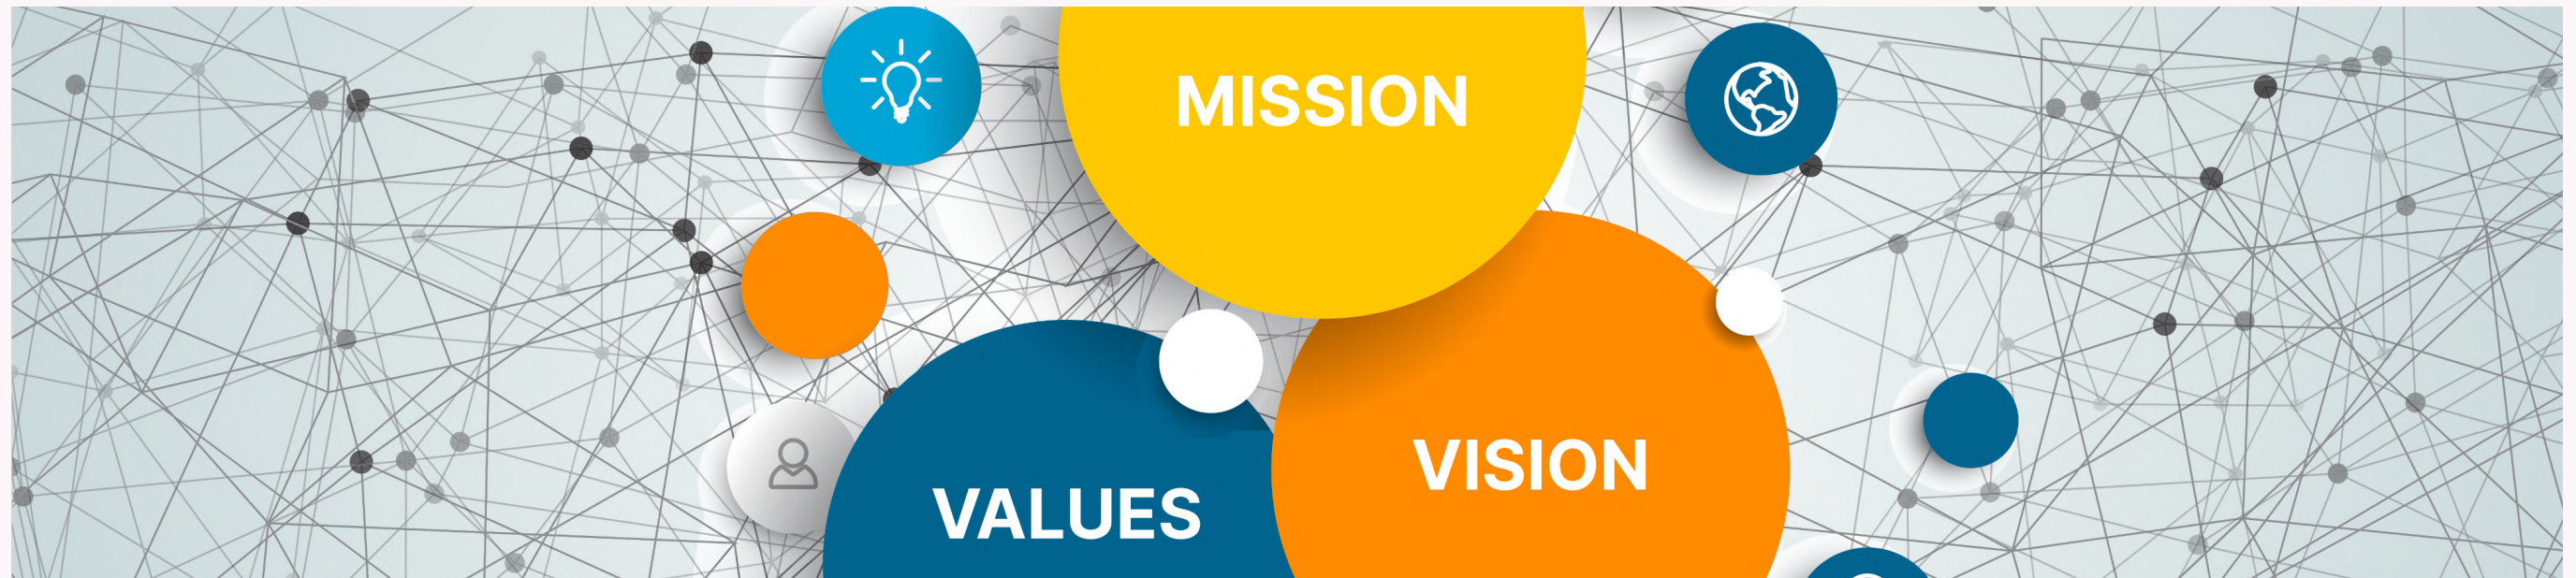

Over the past 16 years, ANCON has firmly established itself as a reliable, tangible, and competent partner, unconditionally guaranteeing the fulfillment of obligations to both partners and clients.

With extensive experience in handling aggressive machinery and equipment impacts, from rocky soil to sour gas environments, ANCON ensures that all newly acquired knowledge and information are meticulously analyzed and applied in the operation and maintenance (O&M) of clients' valuable assets. This commitment results in high-quality performance at minimal costs, enabling clients to entrust their facilities to us while they focus on their core business, free from maintenance distractions.

**"STARTING BOLDLY,
COMPLETING SUCCESSFULLY"**

MISSION, VISION, AND CORE VALUES

MISSION

To deliver safe, high-quality, on-schedule, and end-to-end solutions to our local and global clients, powered by the synergistic capabilities of ANCON's partner companies.

VISION

To become the country's premier service-oriented provider and employer of choice in all our business activities by achieving extraordinary results with innovative technologies for the benefit of all Stakeholders.

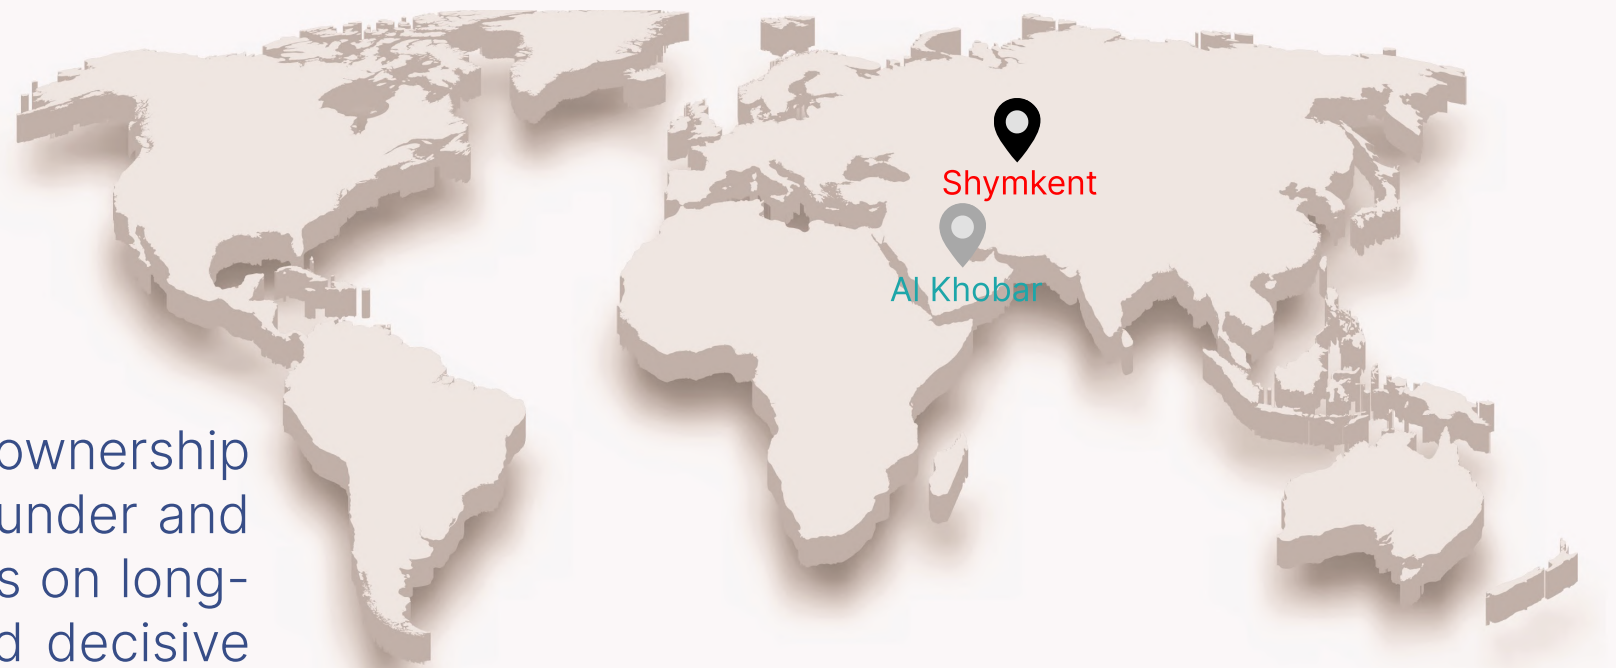

CORE VALUES

We are dedicated to creating efficient and safe working environments that empower our partners and clients to realize their aspirations. Our operations are guided by our Core Values, which include a steadfast commitment to **HEALTH & SAFETY, EXCELLENCE, TEAMWORK, INTEGRITY & ETHICS.**

ANCON'S FOOTPRINT

ANCON was established in July 2008 as a Kazakh-based limited liability partnership, operating under local legislation and regulations. Since its inception, the company has successfully completed dozens of large and ambitious projects across Kazakhstan.

ANCON is a privately held company, with ownership and management vested in the company's founder and CEO. This structure ensures a dedicated focus on long-term expansion goals and facilitates agile and decisive decision-making processes.

In 2023, ANCON expanded its global presence by entering the market in the Kingdom of Saudi Arabia (KSA) and establishing a subsidiary company under the trademark of Ancon Arabia.

HISTORICAL TIMELINE

ANCON'S VALUES

Our culture serves as the foundation upon which we build our success. At ANCON, every individual has contributed to shaping the values we collectively believe are crucial for our achievements.

Health & Safety

At ANCON, safety always comes first. We deeply care about the well-being of our employees, the environment, the communities we serve, and the places we work.

Teamwork

At ANCON, we achieve results by taking personal ownership and fostering effective teamwork.

Excellence

At ANCON, we believe in creating value through quality and continual improvement. We consistently refine our business, processes, and personal development to achieve excellence.

Integrity & Ethics

At ANCON, we prioritize integrity and fairness in all our interactions with stakeholders and each other. We adhere to high ethical standards and expect the same in return.

“WE BELIEVE THAT WHEN WE COMMIT TO WORKING WITHIN ANCON’S VALUES, WE ACHIEVE SUPERIOR RESULTS IN OUR INDUSTRY”

CORE VALUES

HEALTH & SAFETY

Safety is one of our core values

Our focus is steadfast on safety. The foremost commitment is to ensure that each of our employees returns home safely every evening. A secure work environment on every job also enhances clients' efficiency. The unwavering dedication to safety reinforces our core values, safeguarding the health of personnel and nurturing long-standing relationships with clients.

ANCON's safety performance consistently exceeds industry standards, with an injury rate consistently lower than that of competitors. One contributing factor is the intense focus on implementing best practices to mitigate inherent risks in the work environment and prevent unsafe behavior.

0 / **Lost Time Injury (LTI)
for the last 16 years**

HSE POLICY & GOALS

Committed to upholding the highest standards of environmental care, ANCON ensures that environmental considerations are integrated into all aspects of our business. We strictly adhere to HSE standards and deliver work at an exceptional level, leading to satisfaction among our partners, clients, and employees.

- Protecting personnel from any health hazards associated with the work
- Providing an accident-free environment for both ANCON and its contractors' employees
- Improving the HSE culture among ANCON and contractors' employees
- Maintaining compliance with all the applicable HSE legal and regulatory requirements
- Reducing environmental impact and consistently improving performance

EXCELLENCE

We are committed to quality and continuous improvement

Our culture of quality and continuous improvement is rooted in our attitude and commitment to consistently meet or exceed clients' expectations while continually developing and enhancing all aspects of our operations, every hour and every day.

ANCON has established a reliable quality management system that is certified, implemented, and continually improved to ensure the efficiency of its business projects. This system aims to continuously enhance process performance, organizational knowledge, and capabilities, systematically meeting the needs and expectations of its clients at specified standards. ANCON's Quality Management System complies with the ISO 9001 standard and is certified by the 'National Center for Examination and Certification' JSC as of 2021. Regular compliance audits are conducted to ensure that product and service quality is maintained at the highest international level.

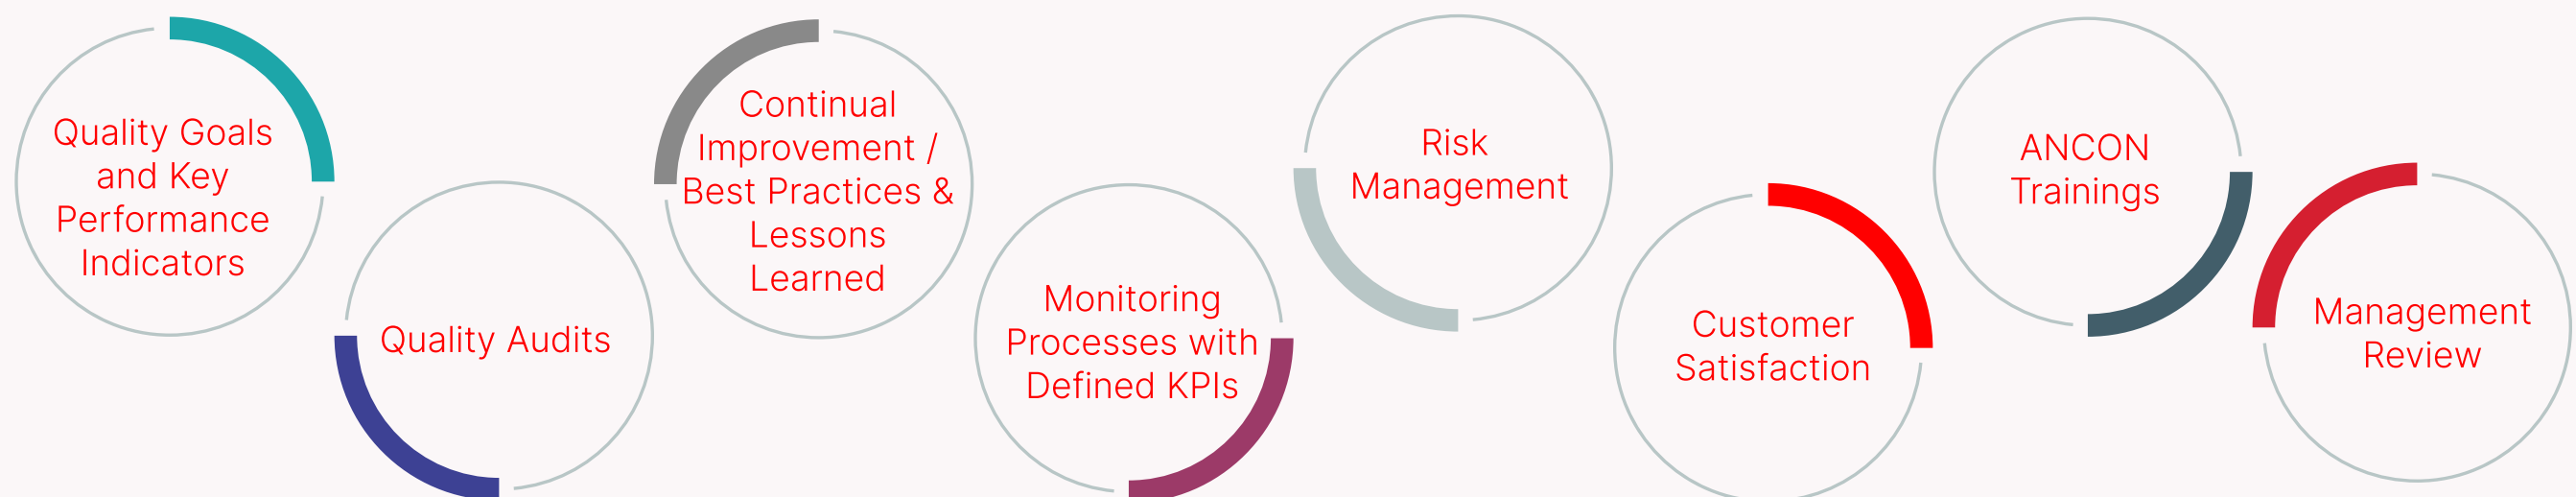

EXCELLENCE

In all projects it undertakes, ANCON, in line with the project contract requirements, considers the needs and expectations of its clients and all other stakeholders. It establishes a reliable, transparent, and traceable quality management system and maintains its corporate quality standards.

To maintain its corporate processes and activities with a stronger, more integrated, and systematic structure, ANCON constantly evaluates its processes, conducts audits and inspection activities, and engages in ongoing improvement activities.

Furthermore, in addition to focusing on recognizing and preventing potential problems, the quality management system implemented in projects serves as an efficient instrument for ensuring that the products and services offered by ANCON conform to the specifications and requirements of the prime contract.

STANDARD QUALITY APPLICATIONS

TEAMWORK

At ANCON, teamwork isn't just a concept; it's our DNA. Together, we forge pathways to success, leveraging each other's strengths, ideas, and passions to pioneer innovation and drive sustainable growth.

Our foundation is built on the pillars of collaboration and unity. Through shared goals and mutual support, we transform challenges into opportunities, and aspirations into achievements, ensuring our collective success propels us to greater heights.

**"UNITY IS THE PINNACLE OF ART,
AND EXISTENCE IS THE BASIS OF
PROSPERITY"**

KAZAKH PROVERB

Team Work

TEAMWORK

We value specialist expertise backed by in-depth knowledge and experience, and we believe career paths should be flexible and adaptable to meet the future needs of our business and the strengths and aspirations of our employees. For us, career development is about building experience and capability and is not defined solely by promotion and advancement.

As part of its culture, ANCON has been acting with respect for human rights, considers its employees as its primary stakeholder group and most important asset, plays a role in the success and sustainability of the group companies, and considers the principle of caring for employees as an integral part of its way of doing business.

At ANCON, we attract and retain the most talented people by investing in training and development tailored to their needs and building on their strengths. Moreover, through our approach to leadership development, our managers learn how to motivate team members to perform at their very best.

average of local employees

"COLLABORATE. ELEVATE. DOMINATE."

INTEGRITY & ETHICS

All ANCON employees adhere to the ANCON Code of Business Conduct and Ethics, embodying our dedication to conducting business with the utmost ethical standards. This code defines the foundational standards of conduct guiding our business operations. Furthermore, to extend our commitment to our values beyond our internal operations, we maintain a Vendor Code of Conduct. This code outlines the fundamental requirements that all our vendors and subcontractors must agree to in order to collaborate on projects for our clients.

The main responsibility of every ANCON employee is to work honestly and fairly, following all applicable laws and regulations as well as ANCON's ethical standards and norms. The "business ethics" that underlie all of ANCON's operations and interactions with internal and external stakeholders, along with its mode of operation in complete compliance with pertinent national and international laws and the tenets of the Universal Declaration of Human Rights, are the foundation of the company's ethical management approach.

"WE WORK WITH OUR PARTNERS, CLIENTS, AND EMPLOYEES IN AN HONEST, RESPECTFUL, AND RESPONSIBLE WAY AND EXPECT THE SAME IN RETURN"

INDUSTRIES WE WORK WITHIN:

- POWER & ENERGY
- OIL & GAS
- TELECOMMUNICATIONS
- CIVIL & INDUSTRIAL CONSTRUCTION
- INFRASTRUCTURE & UTILITIES

Due to its favorable geographical location, ANCON effectively executes services across the entire country, including the Western Kazakhstan region (Atyrau and Aktau). As a leading specialty contractor, ANCON boasts highly trained and skilled manpower, offering fully integrated solutions for industrial facilities, including operation and maintenance (O&M) of infrastructure.

ANCON's engineering team provides a wide range of integrated and optimized end-to-end solutions for all of its business activities.

RANGE OF SERVICES

With precise strategic planning and meticulous attention to detail, ANCON delivers fast-track schedules, rigorous construction standards, and innovative solutions and services.

Civil and Structural Services

- Civil and Structural services
- Earthworks and Landscaping
- Dewatering
- Metal structure fabrication and installation
- Abrasive blasting and Protective coatings
- Insulation and Fireproofing
- Scaffolding
- Temporary facilities fabrication and installation

Mechanical, Electrical, and Instrumentation Services

- Mechanical, Electrical (including substations and high voltage works), Instrumentation and Control Systems
- Underground and Aboveground cable laying (pulling | cutting | dressing | cleating | tagging | glanding | splicing and termination | testing)
- Pipeline and Piping
- Firefighting and Fire Alarm systems
- Heating, Ventilation, and Air Conditioning (HVAC)
- Pre-Commissioning and Commissioning

Specialty Services

- Turn-key deliveries of:
Fiber-Optic Communication Lines (FOCL) (including microduct & microblowing solutions),
Structured Cable Networks (SCN),
Video Surveillance Systems (VSS),
Access Control Systems (ACS)
- Design, fabrication and installation of Antenna Mast Structures (AMS) & Base Stations (BS)
- Trenchless pipe laying by horizontal directional drilling (HDD) method
- Special-machinery and equipment rental services
- Qualified Manpower provision

PRE-QUALIFICATION

ANCON has successfully completed the prequalification process and is now included in the list of approved suppliers for the following companies:

assigned the 3 highest level of criticality of PQ

SEIO status
[reg. № TCO-1229-16]

registration in the FGP database as a supplier of goods/materials
[reg. № 015-C001-KZC-FRM-KZ8-000-00001-00]

registration in the FGP database as a service provider
[reg. № 015-C001-KZC-FRM-KZ8-000-00003-00]

potential supplier of goods/ services
[date of reg. 19.05.2019]

potential supplier of goods/ services
[reg. № 5005921]

In 2023, ANCON specialists successfully completed theoretical and practical training in tube fitting installation and tube bending organized by **Swagelok®**.

In 2024, ANCON specialists successfully completed theoretical and practical training on the use of equipment for pneumatic cable laying (blowing), organized by **JETTING AB**.

In 2024, ANCON specialists successfully completed theoretical and practical training on the installation and pneumatic laying (blowing) of cables into microtubes, organized by **KNET**.

In 2024, ANCON specialists successfully completed theoretical and practical training in the 'Horizontal Directional Drilling Technology' program, organized by the **International Association of HDD Specialists**.

PROJECT MANAGEMENT

Successful project management is driven by proactive decision-making during the early stages of planning and design. ANCON's track record of success in project management is attributed to the teams assembled at the project's outset. Our approach ensures continuous involvement of this team throughout the project, maintaining consistency from start to finish.

We develop comprehensive, integrated plans for logistics, budget management, expenditures, and schedules to coordinate the worksite for optimal resource utilization. Our professionals leverage their skills to achieve outstanding results while providing essential project management services.

Moreover, we recognize the importance of keeping all project participants informed through timely progress reports to assess the project's status.

PROJECT MANAGEMENT

At ANCON, productivity isn't about taking shortcuts; it's about creating the right conditions for plans and schedules to be completed on time or ahead of schedule.

This involves pre-planning, organizing, and mobilizing skilled workers with appropriate tools, equipment, and adequate instructions and supervision.

PRODUCTIVITY

The integration of safety, quality, and productivity has led to a significant reduction in injuries and related costs, while simultaneously enhancing both quality and productivity. This achievement positions ANCON as one of the safest and most efficient specialty contractors, making us the ideal choice for your next construction and facilities services project.

SUPPLY CHAIN SOLUTIONS

To meet the challenges of project schedules, we offer Procurement Services to our clients. Clients choose to entrust us with the procurement of various equipment and bulk materials, allowing for the optimization of the supply chain. We propose transparent and reliable procedures to enable fast procurement within our clients' policies. Additionally, we provide strong support through our knowledge of the market and lean logistics management.

- Vendor list preparations
- Vendor evaluation
- Procurement Plan and Schedule Implementation
- Material requisition preparation and follow up
- Technical bid evaluation
- Purchase orders follow up
- Vendor progress Inspection
- Shipping schedule follow up
- Final Acceptance Test & Final Certification follow-up

**"WE ARE ACCOUNTABLE
FOR THE RESULTS"**

BALANCING YOUR NEEDS AND
FINANCES

DISTRIBUTION PORTFOLIO

ANCON holds the status of a distributor and service partner for foreign companies. We provide our clients with efficient access to essential goods and equipment from manufacturers worldwide, offering competitive prices irrespective of the complexity of their requirements. Our commitment includes ensuring swift delivery times to meet our clients' needs.

RANGE of supplied products: cable and wire products, fiber optic cable, fiber optic splice closures (FOSC), optical terminal boxes (OTB), optical distribution frames (ODF), telecommunication/server/electrical enclosures, RFID markers (analog and smart), markerlocators and tracers, microduct, compression fittings and ball valves, simplex duct plugs (SDP), blank duct plugs (BDP), water detection sensors for FOSSC, cable route markers and warning bollards (plastic), warning and protective tape (including detection tape), lubricant for cable laying/blowing, equipment and accessories for cable laying/blowing, cable grips and slings, cast-iron cable racks, flat cable brackets and much more.

LOCAL MANUFACTURING

In addition, ANCON is a domestic commodity manufacturer and supplier of works and services in the Republic of Kazakhstan. It is incorporated in the unified register of potential suppliers of goods, works, and services of the "NWF Samruk-Kazyna" JSC holding.

The following products are available for purchase:

- Reinforced concrete cable route markers and warning bollards
- Warning and information signs (plastic or metal)
- Reinforced concrete telecommunication manholes KKS-1,2,3,4,5
- Reinforced concrete posts PR-0,6/PR-0,8/PT-43/PT-45
- Polyethylene pipes Ø 20-315 mm
- Polyethylene access manholes (KOD)
